Covering the Expenses for Conference Publication:

Only member or non-member fees are allowed to cover the publication of an accepted paper. To qualify for member rates, the membership number must be provided in the registration form. Student registration fees do NOT guarantee the publication of an accepted paper. If the author registering to cover the paper publication is a student, he/she has to pay the appropriate member or non-member fee. Members to whom the society bylaws grant special discounts (e.g., Students, Life members of the IEEE) cannot use the discounted rates to cover the publication of an accepted paper, they have to pay the member fee.

One author registration will cover the publication expenses of only **ONE** accepted paper. To the same registration could be associated only to **ONE** further paper by paying an additional fee of \$100 USD. Further accepted papers for the same author will require the payment of an additional registration.

In the case no registration has been received and correctly processed to cover the paper publication, the conference organizers will contact the authors before the paper is removed from the proceedings.
